MANITOBA POPULATION ESTIMATES - July 1, 2007

	<u>July 07</u>	<u>July 06</u>	<u>Change</u>
<u>POPULATION</u>	1,186,679	1,178,492	up 8,187
<u>NET MIGRATION</u>	<u>(July to June)</u>	<u>2006/07</u>	<u>2005/06</u>
	Interprovincial	-5,852	-7,881
	Total	4,293	336

Manitoba's total population was estimated at 1,186,679 persons as of July 1, 2007, an increase of 8,187 persons, or 0.69%, from the July 1, 2006 total of 1,178,492.

Manitoba's net interprovincial migration loss totaled -5,852 persons for the census year ending June 30, 2007, compared to the net loss of -7,881 persons for the previous year.

Seven out of ten provinces had net interprovincial migration losses in 2006/07. Alberta (51,169), British Columbia (10,646) and Saskatchewan (3,999) showed the only gains. Ontario (-36,196) and Quebec (-15,568) reported the largest losses through interprovincial migration.

Interprovincial migration is generally offset to some degree by other types of population movement (international migration, Canadian citizens returning from abroad, non-permanent residents and Canadians temporarily abroad). When these other forms of population movement are combined with interprovincial migration, Manitoba recorded an overall net migration gain of 4,293 persons in 2006/07, compared to the net gain of 336 persons in 2005/06.

Net international migration continued to increase for the second straight year with Manitoba recording a net gain of 9,022 persons during the census year ending June 30, 2007. Since 1997/98 net international migration has increased nearly seven-fold. This increase has mainly been the result of immigration levels that have more than doubled since 2002/03. In the census year ending June 30, 2007 Manitoba gained 10,789 persons through immigration, compared to the gain of 4,906 persons in the 2002/03 census year.

It should be noted that Statistics Canada has released revised components of population estimates for Canada, the Provinces and Territories. The revised estimates cover the time period from 2003/04 onward. This MBS report incorporates all revisions.

Table 5 presents the differences between the current population statistics contained in this report and those previously published by Statistics Canada for Table 1.
